## 1. Qualitative Information Regarding Settlement of Accounts for the Nine Months

### (1) Qualitative information regarding consolidated operating results

In the global economy during the nine months ended December 31, 2013, the U.S. economy showed a trend of improvement, as seen by a firm employment situation and an increase in consumer spending, and the European economy began to stage a moderate recovery, as seen by the economic growth rate, which had been weak, rebounding into the positive territory. In the Japanese economy, personal consumption became firmer while exports and capital investment showed signs of recovery. On the other hand, there were concerns about the weakening economic growth rate in China's economy. As a result, the outlook remained uncertain.

In the electronics components industry, in which the Group operates, demand was firm for materials for smartphone and vehicle installation parts.

Operating under these conditions, net sales for the current nine months amounted to 33,090 million yen (up 19.6% year on year).

In the PWB (printed wiring board) materials market, sales volume rose from the same period of the previous fiscal year and the average sales unit price also rose. As a result, net sales of PWB materials were 28,585 million yen (up 35.6% year on year).

Sales of FPD (flat panel display) materials, mainly consisting of PDP (plasma display panel) materials, dropped to 3,496 million yen (down 41.3% year on year), owing to a lower sales volume due to contraction of the market and a fall in the unit price due to a drop in the market price of silver, which constitutes one of the products' raw materials.

As a result, operating income amounted to 5,830 million yen (up 67.3% year on year) with ordinary income at 6,036 million yen (up 61.5% year on year) and net income at 3,859 million yen (up 53.3% year on year).

1) Japan

The consolidated company comprising the Japan segment is TAIYO INK MFG. CO., LTD., a manufacturing and marketing subsidiary.

In the nine months ended December 31, 2013, due to firm performance of high function products of PKG (semiconductor packages) materials, mainly for smartphones, both the sales volume and the sales amount increased year on year.

As a result, net sales amounted to 10,801 million yen (up 7.3% year on year) with segment profit at 1,565 million yen (up 16.7% year on year).

2) China (including Hong Kong)

The consolidated companies comprising the China segment are TAIYO INK (SUZHOU) CO., LTD. and Onstatic Ink (Shenzhen) Co., Ltd. (the latter changed its name in December 2013 from GOO-AMC Corporation), manufacturing and marketing subsidiaries, and TAIYO INK INTERNATIONAL (HK) LIMITED and TAIYO INK TRADING (SHENZHEN) CO., LTD., marketing subsidiaries operating mainly in the southern China region. Onstatic Ink (Shenzhen) Co., Ltd. is a subsidiary of Onstatic Technology Co., Ltd., which was acquired during the first quarter ended June 30, 2013.

Performance was strong for PWB materials, particularly for vehicle installation parts and smartphones, and the sales volume and sales amount increased compared with the same period of the previous fiscal year.

3) Taiwan

The consolidated companies comprising the Taiwan segment are manufacturing and marketing subsidiaries TAIWAN TAIYO INK CO., LTD., and Onstatic Technology Co., Ltd. (and another three subsidiaries).

As a result of strong demand for PWB materials for servers, vehicle installation parts and smartphones, the sales volume and sales amount increased compared with the same period of the previous fiscal year.

As a result, net sales amounted to 5,943 million yen (up 101.2% year on year) with segment profit at 1,039 million yen (up 174.4% year on year).

4) Korea

The consolidated company comprising the Korea segment is TAIYO INK CO., (KOREA) LTD., a manufacturing and marketing subsidiary.

Due to a decline in the sales volume of FPD materials, which have a low-profit margin, and a fall in the market price of silver, which constitutes one of the products' raw materials, the sales amount dropped year on year. On the other hand, demand was firm for the high function products of PWB materials used in smartphones, which have a high-profit margin, and profit increased year on year.

As a result, net sales amounted to 8,062 million yen (down 12.1% year on year) with segment profit at 855 million yen (up 64.6% year on year).

5) Other
